**MedeaWiz is a total
multimedia solution provider**

Mission

To deliver innovative, cutting-edge hardware solutions that are cost-effective for the kiosk, POP and POS industries.

**Let MedeaWiz put the magic back into your
multimedia project.**

We specialize in developing and manufacturing electronic hardware for use in multimedia retail store displays, interactive kiosks, POP, POI and POS systems. The choice to use digital POP and interactive Kiosks or POS systems is a bold step and yet it can be confusing. In order to maximize your advertising dollar, you need a partner that understands your needs and the technology to help you reach your project goals.

MedeaWiz was established in 1996 with a vision to bring you the latest advancements in multimedia presentation technology and superior audio/visual design and to produce high impact marketing vehicles while manage your budget requirements.

We sincerely invite you to contact us or one of our OEM partners to discuss your next multimedia project and discover how MediaWiz's touch of magic can propel your marketing message.

Mini Industrial PC

DV-8802

MPEG-2 Digital Player

DV-66

10.4" LCD All-in-One Player

DV-66104

Great solution for networking your POP Displays or Interactive Kiosks!

The DV-8802 mini-compact system delivers optimum processor power with system flexibility to allow for easy upgrades to memory and storage devices. This system is ideal for high quality multimedia displays and interactive kiosk applications that require networking using LAN or WLAN. It is also perfectly suited for stand-alone systems.

Features

- Small and compact, only 10" x 5.75" x 1.75"
- VIA C3 1.0 GHz processor
- Replaceable air filter
- Industrial design for long term durability
- Built-in LAN port, 3 USB ports.
- 20GB hard disk standard
- 2D/3D AGP video with 16x9 compatibility
- Internal CD ROM slim or DVD/CD-RW combo slim

Benefits

- PC based kiosk for easy use and software integration
- Small & compact design
- Dust-free cooling system
- Easy upgrades: memory, hard drive, processor.

Also supports MPG-1, MP3 and JPEG

The DV-66 Digital Media Player provides multi-format support in a compact, industrial hardware design which is specifically designed for the POP and Kiosk market.

DV-66 connects easily to any NTSC, PAL, or **VGA (new)** video monitor, amplified stereo audio system or multimedia POP displays. It is the perfect choice for any POP display, digital signage or interactive kiosk system due to its compact design, industrial design, and cost effective pricing.

The DV-66 is also available as a board-level product, [DV-66B](#).

Features

- Support multiple formats: MPEG-2, MPEG-1, MP3, and JPEG.
- **NEW** - VGA output
- **NEW** - IBM MicroDrive support
- Repeat or Menu modes available
- Multiple track selection, up to 99 tracks
- Instant track response
- Stereo audio output

An industrial designed, compact solution that features our reliable DV-66 MPEG-2 Player linked to a 10.4" TFT LCD display. The DV-66104 is small and light enough to be wall mounted or integrated into a full size kiosk. A high quality hardware solution at a price you can afford. This solution is available with or without a touch panel.

Features

- 10.4" TFT LCD display with digital MPEG-2 Player, DV-66
- Multitrack selection
- CompactFlash® Media compatibility
- Audio/video compatibility
- Instant track selection response
- Auto-start on power on

Benefits

- Industrial design for durability
- No moving parts, no tapes rewind
- Small & compact design
- Easy installation & maintenance
- User friendly content integration
- Reliable storage with CompactFlash® Cards
